

# TEXTURES & MATERIALS

Surface and touch define Resort 2027's material dialogue. Denim evolves beyond its casual origins into tailored constructions and elevated layering. Satin and shining deliver liquid glamour in both day and evening silhouettes. Transparency and lace channel romantic femininity with a modern edge. Fur lends opulence to resort dressing, while leather grounds the collection with precision and edge. Jacquard and wrinkle-effect techniques add dimensional richness to structured pieces.

## WRINKLED

### *Crinkle & Crush*

- Intentional crinkle and crush finishes create dimensional tactile surfaces
- Puckered and gathered structures in lightweight satin and chiffon
- Wrinkle-effect treatments speak to effortless resort dressing
- Works particularly well in ivory, sand and muted rose tones

## DENIM

### *Elevated Indigo*

- Denim escapes its casual vernacular into tailored resort constructions
- Bleached, acid-washed and raw-edge treatments add artisanal character
- Head-to-toe denim dressing is the defining resort outfit formula
- Light-to-medium washes dominate; indigo maintains luxury positioning

## LACE

### *Romantic Precision*

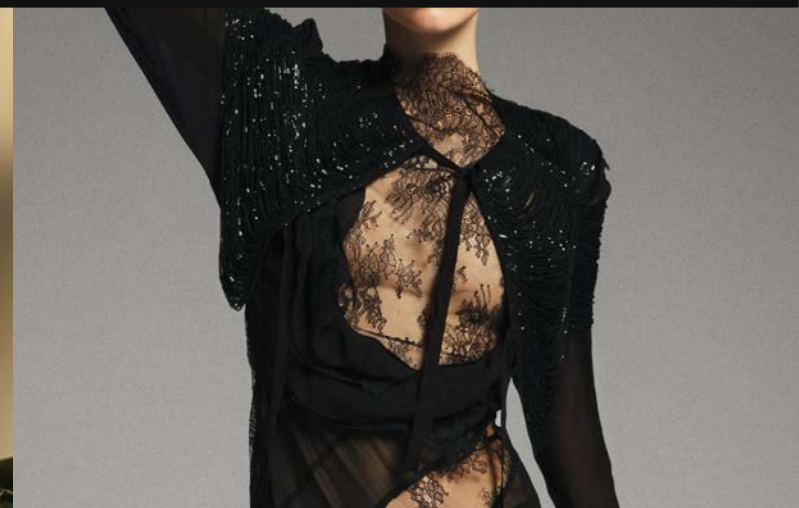

- Fine needle-lace and Chantilly constructions define resort femininity
- Layered lace over contrasting grounds creates depth and drama
- Macramé and crochet laces add artisanal warmth to beachwear
- Key application in eveningwear, blouses and overlay detail pieces

## SATIN

### *Liquid Luxury*

- Silk satin and stretch-satin deliver the defining resort luxury silhouette
- Bias cuts and draping techniques reveal the fabric's natural fluidity
- Deep jewel tones: midnight blue, scarlet, champagne, anchor the palette
- Slip dresses and fluid sets are the key commercial resort archetypes

## TRANSPARENCY

### *Sheer Allure*

- Organza, chiffon and voile layering creates resort's defining sheer aesthetic
- Graphic underslip contrast enhances the see-through effect
- Embroidered sheer panels blend transparency with decorative craft
- Tonal dressing, sheer over matching base, for refined commercial application
